

**Standard - 900mm x 900mm x1970mm.**

**Raised Base Height - 2070mm**

The Elisha is a two piece shower that can be dismantled to fit through a standard doorway – making it practical with customers that would otherwise need a smaller shower due to access. No mortar is required as all of our shower cubicles are free standing and built to last. This variation of the Elisha cubicle is ideal for use with a shower curtain or screen.

### Models Available
